

WHAT IS IL SLOT DATA?

Lucky Lincoln Gaming is the only Illinois Terminal Operator that provide real-time monitoring, reports, and analytics. While other operator requires you to lo into the Illinois Gaming Board website and find your own data, Lucky Lincoln Gaming provides you access to the state-of-the-art platform that gives you a complete overview of what your business is doing.

IL Slot Data was built from the ground up by Lucky Lincoln Gaming developers just for you. The platform is designed to give you a complete view of your gaming business. You'll know how much money is going into your machines and how much money is going out.

You'll also be able to see which machines are performing better than others. We're always continuing development on this platform to improve functionality. This is just one of the many reasons we're considered innovators in the space!

As a Location Owner, you have been assigned your own unique login credentials which your account manager will provide you. Your user guide is provided in these pages, and your Relationship Manager will walk you through the portal's functions.

Website: <https://ilslotdata.com/login>

Capabilities:

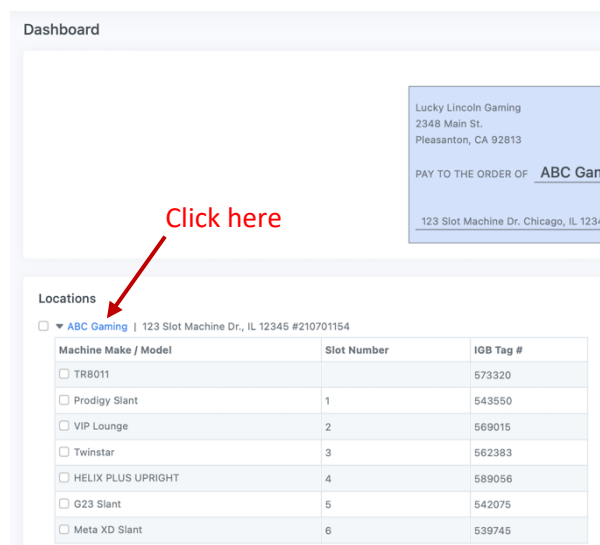

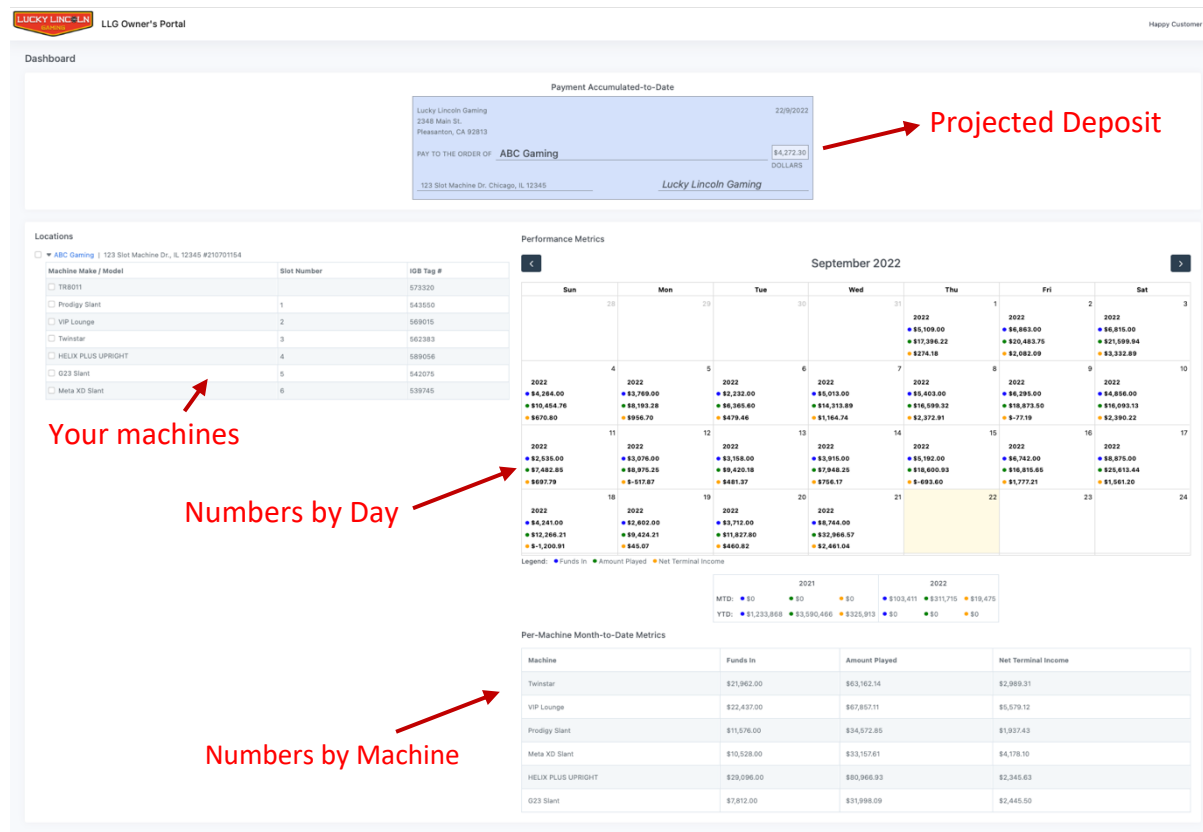

- View and manage your forms and their expiration dates.
- View machine analytics and performance reports.
- Revenue and reimbursement statements
- View play reports: Daily, Weekly, Monthly, Annually.

Popular Terms for ILSD Reports:

- Funds In – The amount of physical cash that has been deposited into the terminal by patrons.
- Funds Out – The amount of physical cash that has been release by the terminal (this is not a reflection of winnings/losses).
- Amount Played – The value of the bets that have been played by terminal.
- Amount Won – The dollar value of winnings on the terminal.
- Net Terminal Income or NTI – This a value of “amount played” minus “amount won” which equals to the net income on each terminal. In other words, NTI in the total number of Net Income for each given terminal. This is not your take home revenue amount. The NTI is shared – 34.85% for the state, central system, municipality; 32.57% terminal operator, 32.57% location owner.
- Hold Percentage - The amount of the players money the terminal keeps. Average 8%-10% meaning the hold is set at 92%.

IL SLOT DATA HOME PAGE

Once logged in to the portal you will be taken to a home page similar to below.

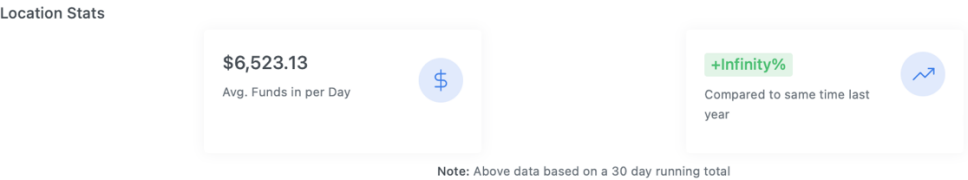

On the left side of the screen, click on your establishment name. If you have more than one location, they will all be listed here.

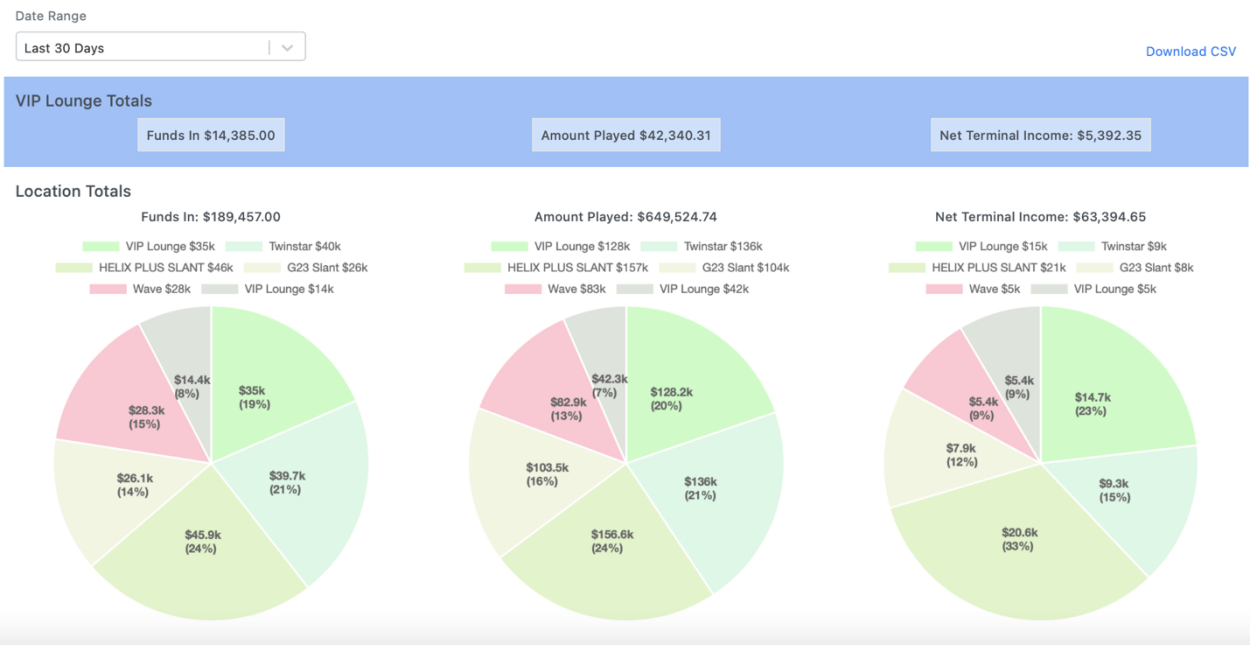

This will take you to performance reports, comparisons, licensing, and financials.

PERFORMANCE SCREEN

You will be immediately taken to your performance page.
On the top of the screen, you will see two boxes. First one shows your average funds in per day. The second box will show your comparison at the same time as last year.

Here you will see how each machine is performing. You can choose to see 30 days, 90 days, month-to-date, or year-today of performance.

COMPARISON SCREEN

The next tab is your comparison screen. Here you can see where you stand in your community within 10 miles or 30 establishment – whichever comes first.

Your establishment will be the blue point on the map.
